

**YOU'RE
INVITED!**

A new Collaborative Emergency Centre is set to open at the Annapolis Community Health Centre, part of the provinces Better Care Sooner Plan. The centre will enhance access to primary health care services while still providing 24 hour access to emergency health care.

Join us for a community conversation about your new Collaborative Emergency Centre. This is an opportunity to ask questions; meet and learn about the health care providers who will support your care; and to learn about how the Collaborative Emergency Centre can benefit you and your family.
