Dear Ms. Knox,

Community conversations with AVH resulted in little information about ER services in ACHC, or the effect on the Centre if our ER is closed or cut back.

I feel “taken in” by election promises and Health Department easy assurances, which is why I respectfully ask you to:

Meet with the community in an information forum to address the established criteria to maintain ER services in our catchment area and the facts.

Fight for us! Give ACHC 24-hour, full-service emergency room capability, 7 days a week.

Sincerely,
